

P1's Holding in Tantan Ltd
("the Company")

Shareholder information, for immediate release
June 12, 2018

Dear Shareholder,

In the shareholder information sent May 23, 2018 the Company informed that the closing payment had been received and that the Company was awaiting the confirmation of tax filing before proceeding with the final distributions of proceeds to shareholders. The Company wrote that it was expecting to receive the confirmation of tax filing beginning of June 2018.

Deloitte (Beijing), who is managing the tax filings for all parties in the transaction, has informed the Company that the filing has not been finalized and that the new estimate for completion is early July 2018. The reason for the delay is the volume of matters currently being processed by the Beijing Tax Authority.

The Company can only proceed with final distributions of proceeds to shareholders - the resolved repurchase and redemption of shares (*Swe: inlösen*) - upon receiving the confirmed tax filing. As such the Company will be in contact again immediately upon its completion.

Sincerely, the Board
